(Includes Free Manual)

Priority Code 15400

**Storm water regulations are constantly evolving – have your practices evolved with them?**

From recent litigation to changing permitting standards, failing to stay on top of current issues related to storm water regulation is risky. In this seminar you will walk away with the ability to self-assess your facility for the need for permit coverage, determine the applicability of a no exposure determination and maintain no exposure status.

Here is your chance to learn – in just one day – the facts about current legal issues, monitoring and inspection, and selection of BMPs ... everything you need to know to avoid reactive responses to regulatory changes, adequately plan and ensure compliance.

## Benefits for You

- Understand the risks and expectations that apply when submitting a permit application
- Receive tips on developing an effective SWPPP and on-site inspection/management program
- Get a lessons-learned approach to quality management for industrial and construction discharges
- Learn how to avoid problems in state and federal enforcement
